

# PRODUCT EXPANSION

## HUBS AND WHEEL BEARING KITS

The BW range of Hub Assemblies and Wheel Bearing Kits has just been expanded. The BW range now covers over 90% of vehicles on the road in Australia and New Zealand. This level of coverage ensures that BW can provide a Hub or Wheel Bearing Kit for almost all popular makes and models on the road today. With over 1,600 individual products in the range and another 47 on the way, the BW range of Hubs and Wheel Bearings is constantly growing, to ensure BW has a solution for almost every vehicle on the road.

The BW range of Hub Assemblies and Wheel Bearing Kits are designed to be OE replacements and are always OE quality or better. The BW range is sourced from world-leading manufacturers to ensure BW Hubs and Wheel Bearing Kits are always reliable and top quality. BW Hubs and Wheel Bearing Kits come with all required components such as ABS rings or seals where required, to provide a complete Hub or Wheel Bearing replacement package.
