About Bearing Wholesalers

With over 37,000 different parts, Bearing Wholesalers is a true one-stop shop for the automotive, industrial, maintenance and agricultural sectors servicing customers in Australia, NZ and many other countries around the world for over 40 years.

As an authorised distributor of many leading global brands such as Gsp, JTEKT, TOYO, SCHAEFFLER, OPTIBELT, DAYCO and Nsk to name a few – Bearing Wholesalers is able to offer a large range of bearings, seals, power transmission components, lubrication, fasteners, chemical sealants, adhesives, tools and equipment, consumables, safety gear, cleaning products and components, amongst many other products.

Bearings Wholesalers private label brand, BW, provides a trusted solution to keep you in motion, providing the ultimate and most reliable bearing & driveline solutions.

Leading Innovation in Driveline Solutions

At Bearing Wholesalers, innovation and continuous improvement are embedded in everything we do. With a strong focus on driveline development, our in-house research and development (R&D) centre in Brisbane works closely with global manufacturing partners, including GSP Automotive Group, to refine and enhance the CV product range beyond OE standards.

As a result of our investment in R&D, a significant portion of our top-selling products have been engineered specifically for Australian roads and applications. Our continuous improvement ethos is central to this success, with rigorous investigation of use cases to optimise products for the unique conditions within Australia and New Zealand.

While CV components remain a core area of focus, our R&D capabilities extend more broadly across our range, supporting product enhancements, fitment development, and quality assurance across multiple categories. This ensures we stay ahead of market trends and continue to offer high-performing, reliable solutions that meet the evolving needs of workshops and resellers alike.

Backed by rigorous testing and real-world validation, our development process ensures durable, trusted products that keep vehicles moving and customers confident.

Wheel bearings provide a point of connection between the hub and the axle or driveshaft of the vehicle, allowing them to move independently whilst reducing friction to ensure smooth and efficient rotation of wheels.

Bearing Wholesalers stock wheel bearing kits for an extensive range of passenger vehicles, 4WDs, commercial vehicles, industrial and all types of trailers. All Bearing Wholesalers wheel bearing kits are manufactured using high quality materials and components to ensure a smooth and reliable operating life.

Key brands include GSP, Timken, Jtekt (Koyo), NSK, HCH, FBJ, KSM, LDK, NBS, FAG and Nachi.

Ball Bearings

- Over 2500 sizes available
- Low friction, low noise and low vibration
- To suit automotive and industrial applications

Tapered Roller

- Low friction, accommodates axial and radial loads
- Over 1000 applications available
- To suit automotive and industrial applications

Cylindrical Roller

- Designed for heavy radial loads and high speed
- Over 100 sizes available
- To suit automotive and industrial applications

Needle Roller

- Over 1000 sizes available
- Disperses load over length of roller to extend bearing life
- To suit automotive and industrial applications

Spherical Roller

- High load capacity and accommodating of misalignment
- Long service life and over 100 sizes available
- To suit industrial applications

Wide Inner Ring Bearings

- Designed for use with corresponding housings
- Over 100 sizes available
- To suit industrial applications

Precision Bearings

- Minimal vibration, noise, and friction with high tolerance
- For high accuracy, speed, and performance applications
- To suit industrial applications

Housings and Adaptor Sleeves

- Metric and imperial sizes to suit various industrial applications
- Available in cast iron and stainless steel

Bearing Wholesalers is Australia's leading supplier of automotive bearings and driveline components, offering an unmatched range including wheel bearing kits, hubs, driveshafts, CV joints, pulleys, seals and more.

With over 35 years of experience, we hand-pick every component and assemble kits in our Melbourne facility to ensure consistent quality. Our long-standing global supplier network across OE and aftermarket gives us the edge to select the best option for every application, delivering reliability and peace of mind.

We are proud to be the supplier of choice for automotive bearing components in Australia. We also offer complete trailer and 4x4 solutions including bearing kits, jockey wheels and accessories.

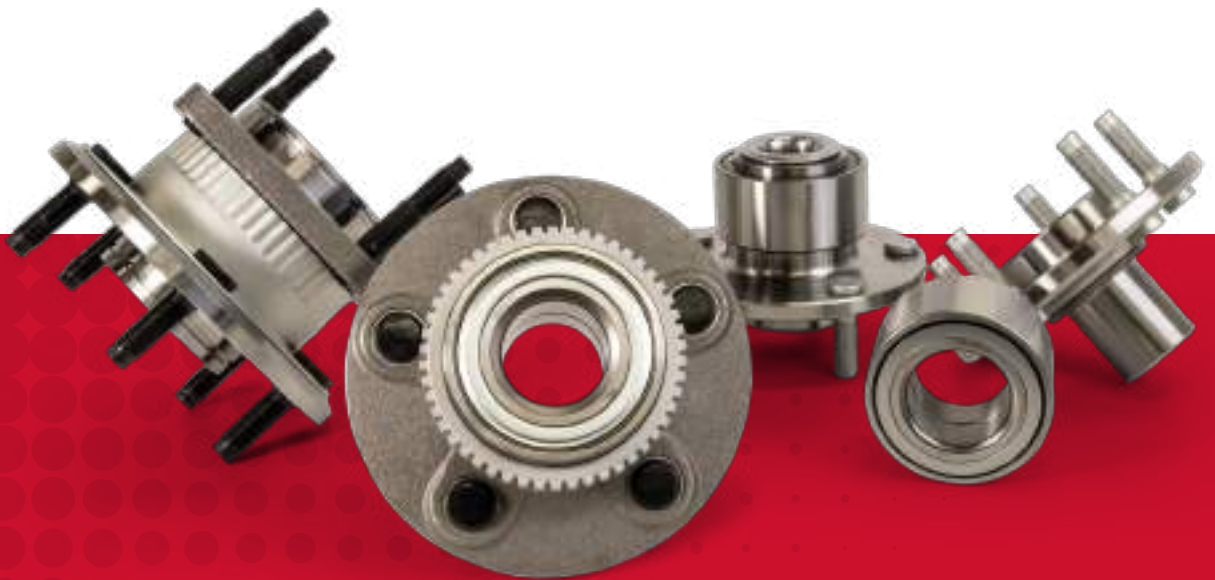

As proud supplier of GSP driveshafts, we offer a superior 5-year passenger vehicle warranty*, reflecting our commitment to reliability and long-term value.

***Warranty:**

- Passenger vehicles (exclusively used on paved roads): 12 months or 20,000km^
- Commercial or off-road vehicles: 3 months or 5,000 km^

^Whichever comes first

HUBS

- OE replacement, ABS Compatible
- Coverage for majority of Australian automotive market
- High quality for smooth, quiet, and reliable operation

SUPPLIER OF CHOICE WHEN IT COMES TO BEARING COMPONENTS.

CV Shafts

- Designed to be of equal or better quality than the original equipment fitted to a vehicle
- Extensive range for the Australian and New Zealand Market

CV Joints & Boot Kits

- Continuously growing range for Australian market
- All necessary parts required for full replacement
- OEM quality for reliable performance

Centre Bearings

- Extensive range for Australian automotive market
- OE quality replacements
- Stabilizes, supports and reduces vibration
- Available in top quality brand BW

Rubber Couplings

- Reduces shock and vibration between rotating shafts
- Supplied with tensile rated fasteners
- Long service life and reliable performance
- Available in top quality brand BW

Tailshafts & Propshafts

- Engineered with OE standards to ensure durability and eliminate noise and vibration (NVH)
- 100% precise balanced, radial run-out and GP12 inspection procedures to ensure quality
- High-performance grease to provide better wear-resistance

Oil Seals

- Over 3300 individual sizes available
- OE quality or higher to ensure leak free operation
- Available in various materials including nitrile, silicone and viton to cover a range of applications
- Available in top quality brands LYO, CHO, NAK, NOK

Differential Repair Kits

- Includes OEM branded components to maintain reliability
- Extensive range available for passenger, commercial and 4WD vehicles
- Available in top quality brand BW

Drive Belts

- Extensive range available for relevant automotive applications
- Provides power to auxiliary engine components such as power steering, water pumps and A/C systems
- Available in top quality brands Dayco, Gates, Optibelt

Power Steering Kits

- All required components to reseal and repair power steering pumps
- Extensive range for Australian automotive market
- OE quality to ensure reliable performance for entire service life

Mechanical and Hydraulic Tensioners

- Keeps tension on belt and removes slack to prevent slipping or misalignment issues during operation
- Extensive range for Australian market
- OE brands to ensure safe and reliable operation
- Available in top quality brands INA, NSK, Jtekt (Koyo), GMB

Idlers and Pulleys

- Sources from leading aftermarket and OE manufacturers
- Provides running surface for belt to idle on and allows belt to be routed around components where needed
- Large range for the Australian automotive market
- Available in top quality brand BW

Wheel Bearing Kits

- Extensive range to cover classic to modern vehicles
- Components vary to suit individual applications
- Available in top quality brand BW

4x4 Repair Kits

- Extensive range of swivel hub and transfer case repair kits to cover the Australian and New Zealand market
- Available in top quality brand BW

Timing Belts

- Constantly growing range to suit Australian market
- Mechanically synchronizes crankshaft with camshaft
- OE quality to ensure safe, reliable performance for entire service life
- Available in top quality brands Dayco, Gates, Optibelt

Universal Joints

- Extensive range covering the Australian and New Zealand automotive and 4WD market
- Provides transmission of rotary motion between shafts at differing angles
- OE quality to ensure performance and reliability
- Available in top quality brand Toyo

TIMING BELT KITS

- Includes all required components such as tensioners and pulleys for timing belt service
- Extensive range for Australian automotive market
- OE quality to ensure reliable performance for entire service interval

**GEARBOX & 4X4 TRANSFER
CASE REBUILD KITS**

TAILSHAFTS & PROPSHAFTS

CLUTCH THRUST & SPIGOT BEARINGS

HUB UNITS

CV JOINTS

Trailer Plugs

- Provides easy connection for trailer and vehicle wiring
- Large range of trailer plugs available in flat and round styles in both male and female form
- Top quality to ensure safe and reliable connection and disconnection

Wheel Bearing Kits

- Extensive range of wheel bearing kits for all common trailer applications including marine applications
- Comes with bearings, seals, and split pins
- Reduces friction in trailer hub and provides protection against contamination
- Available in top quality brand BW

U-bolts

- Extensive range of sizes, available in both U and square bolt shapes
- Provides a secure method of fastening axle and leaf springs trailers
- High tensile to eliminate bolt stretch

Bearing Buddies

- Greaseable trailer hub protection
- Protects trailer hub bearings from water ingress and outside elements
- Improves life span of trailer bearings
- Available in top quality brand BW

Grease Caps

- Large range to suit common trailer hubs
- Prevents contaminants from entering bearing housing
- Galvanized finish to reduce corrosion

Hubs

- Extensive range to cover common applications including Holden, Ford and Toyota
- Can also be supplied with appropriate bearings for the application
- Available in galvanised and painted finishes
- Available in top quality brand BW

Tow Balls and Couplings

- Full range of tow balls and couplings to suit majority of Australian trailers
- Provides secure mechanical connection between trailer and tow vehicle
- High quality to ensure corrosion resistance and safe operation

Jockey Wheels

- Broad range of trailer jockey wheels including pneumatic and solid wheel options in various sizes
- Available in clamp and swing away style in various load ratings
- Enables manual positioning of trailer while supporting draw bar

Axles

- Wide range of axles including stub axles and solid axles for most trailer applications and available in round and square form
- High quality to reduce need for maintenance and repair
- Supplied with axle nut and washer

Oil and Grease Seals

- Essential to maintaining operating condition of trailer bearings
- Prevents contaminants from entering bearings, ensuring long service life
- Top quality to ensure safe and reliable operation
- Domestic and marine applications available

Springs

- Suits the most standard and boat trailer applications
- Reduces vibration and shock, assists in load distribution, and improves trailer handling
- Top quality to suit Australian road conditions

Lights and Reflectors

- Large range of LED lighting and reflectors
- Top quality to ensure long life and reliable performance
- Legal requirement for all Australian road trailers

Agricultural equipment and machinery such as combines, sprayers, planters, balers and many more are the backbone of farming in Australia. Everyday foods and products in Australia depend heavily on agricultural machines and equipment, and as such, reliability and performance are essential.

Bearing Wholesalers' firmly established relationships with top tier manufacturers allows them access to the highest quality products to ensure agricultural equipment can continue to operate safely and reliably.

Top quality brands include Timken, LDK, RHP, KSM, FBJ, NSK and Jtekt (Koyo).

Disc Plough Bearings

- Designed for harsh operating conditions
- Large range of sizes available in multiple bore shapes

Flange Mount Bearings

- Provides mounting options for desired bearings
- Extensive range of styles and sizes to suit the required application

Self-Aligning Ball Bearings

- Designed with spherical raceways to accommodate shaft angle misalignment
- Over 100 sizes available

Agricultural Idlers

- Available for both chain and belt applications
- Allows for idling of chain or belt for various applications

**HIGHEST QUALITY
PRODUCTS TO ENSURE
AGRICULTURAL
EQUIPMENT CAN
CONTINUE TO OPERATE
SAFELY AND RELIABLY.**

**NEED A
REPLACEMENT PART?**

**EXTENSIVE RANGE OF
TOP QUALITY BRANDS
TO REDUCE WEAR &
TEAR AND EXTEND
LIFE CYCLE.**

Power transmission products provide a method of transferring power or drive between components. Bearing Wholesalers range of power transmission products include sprockets, pulleys, weld-on hubs, belts, and chain.

With an extensive range of power transmission products, Bearing Wholesalers will be able to assist with a product for almost all applications.

Sprockets and Pulleys

- Extensive range available in pilot or taperlock bores
- Heat treated range of sprockets to reduce wear and prolong operating life
- V-belt pulleys for universal application

Weld-on Hubs

- Large range of sizes and tapers available
- Produced in low carbon steel for compatibility with welding
- Drilled, tapped, and bored to suit most taper lock bushings

Drive Belts

- Large range of universal belts and pulleys to suit universal applications
- Available in extensive range of lengths, widths, and depths
- Available in top quality brands Dayco, Gates and Optibelt

Chain

- Large range of chain for universal applications
- Full range of joiners and connectors
- High quality to reduce wear and extend life cycle
- Also available for Agricultural

PREMIUM PAINT & PANEL PRODUCTS

Extensive range of paint and panel products

- Spray paint, marking paint, primer, clear coat, rust proofing, body deadener, car filler and more
- Top quality products from leading brands such as Septone

Paint Marker Pens

- Permanent, opaque pigment-based ink. Water-resistant
- Suitable for many surfaces: including thick card, metal, glass, ceramic, and plastic
- Nib only charges when activated, preventing any unwanted paint leakage

High quality paint products for a variety of applications

- General touch-ups
- Rust & Corrosion protection
- High-temperature engine paint
- Galvanising paints

**TOP-QUALITY PAINT
& PANEL PRODUCTS
FROM LEADING
BRANDS**

INDUSTRIAL SUPPLIES & CONSUMABLES

Consumables are a constant requirement for many industries and businesses. Partnering with local and global manufacturers, Bearing Wholesalers has broad range of consumables for almost any application.

Catering to both trade professionals and DIY-ers, Bearing Wholesalers stocks a large range of consumables to suit a multitude of needs.

Industrial Rods and Bushes

- Large selection of bushing and round stock
- Various sizes available
- Materials available in nylon, bronze, copper, and steel

Shim Stock

- Full range of shim material to suit all applications
- Available in assortment packs and rollst
- Various materials available including brass, steel and stainless steel

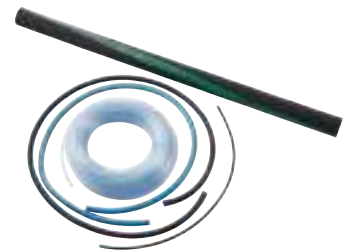

Keysteel

- Essential for gears, sprockets, and pulleys to shafts
- Metric and Imperial sizes available
- Zinc plated for corrosion resistance

Gasket

- Full range of gasket materials for creating gaskets
- Rubber, paper and cork
- Available in various sizes

Hoses

- Large range of hose to suit many applications
- Fuel, Heater, Vacuum and Nylon hose available in custom sizes and rolls

Castor Wheels

- Large range of sizes available to suit most applications
- Available in braked, rigid and swivel variations
- High quality galvanised finish to prevent corrosion

Lubrication

Oil

- Large range of oils to suit industrial applications
- Hydraulic oil, castor oil, air tool oil, additives and more
- Quality product ensures smooth and reliable performance
- Available in top quality brand Gulf Western

Grease

- Large range of greases and lubrication tools/applicators for all applications
- Rubber grease, lithium grease, copper grease, antiseize and more
- Available in tubs, tubes, and cartridges
- Available in top quality brand Gulf Western

Lubrication Equipment

- Large range of grease and lubrication equipment for universal application
- Grease guns, grease packers, oil cans, grease gun nozzles and more
- Available in top quality brands Macnaught and Alemlube

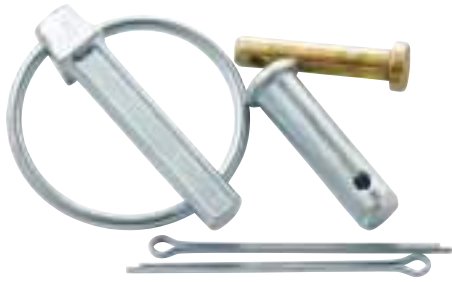

Anti-seize

- High quality selection of anti-seize lubricants for many applications
- Prevents rust, corrosion and seizing of parts
- Available in top quality brands Loctite and Permatex

Food Grade Lubricants

- Extensive range of food grade lubricants to suit all applications
- Available in sprays, cartridges, and tubes
- Extensive use of multi-purpose sprays for any application
- Used for endless applications including cleaning, lubricating, penetrating, and maintaining
- Available in top quality brands Inox and Rocol

Retaining Pins

- Variety of retaining pins available including lynch pins, split pins, clevis pins and more
- Large range of sizes and finishes available
- High quality to ensure long and reliable service life

Bolts, Screws, Nuts & Washers

- Extensive Range of bolts and screws for almost any application
- Available in metric and imperial thread pitches with high tensile option available
- Large range of styles available such as Flange head, Cup head, Socket head and many more

Circlips

- Extensive range of both external and internal circlips in metric and imperial sizes
- Used to keep components captive while allowing rotation
- Available individually and in kits

Cable Ties and Hose Clamps

- Extensive range of cable ties and hose clamps
- Universal fasteners with endless applications
- Available in singular and multi-pack formats

Brass Fittings

- An assortment of brass fittings including elbows, tees and nipples to suit various applications
- Available in threaded, barbed, valved, and press fit styles

Rivets

- Large range of rivets to suit industrial and automotive applications
- Available in multi packs and bulk formats
- Stainless steel and aluminium available

Adhesives

Epoxies

- Large range including quick dry and 24 hour set
- Clear and metal epoxy available in various strengths
- Available in top quality brands Permatex, Devcon, Loctite and JB Weld

Glues

- Extensive range of glues to suit majority of applications
- Specific application glues available
- Available in top quality brands Loctite and Q-bond

Threadlocker

- Extensive Loctite range of thread lockers, sealants and retaining compounds
- Available in all desired strengths to suit many applications
- Designed to protect threads, and prevent loosening caused by vibration
- Available in top quality brands Loctite and Permatex

Tapes

- Extensive range of applications including electrical tape, duct tape, cloth tape and more
- Available in multipacks or individual rolls
- Available in top quality brands Nitto and Gorilla

Silicones

- Extensive range of silicones and caulking
- Specialist application specific silicones available
- Available in top quality brands Threebond, Sika, Dow Corning and Loctite

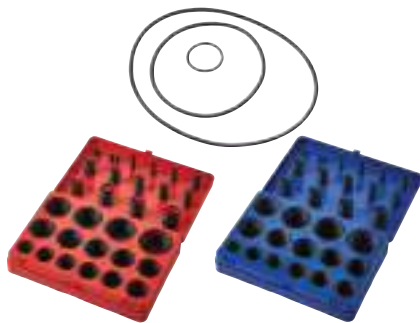

Aerosols

- Universal contact adhesives
- Great for fabrics or large surface area applications
- Available in top quality brand Septone

**Cleaning Product**

- Bulk buy washing powder
- Perfect for washing cloths, towels, rags, and uniforms
- Great for workshops
- Available in top quality brands Septone and Loctite

**O-Rings**

- Metric and Imperial sizes
- Available in Nitrile, Silicone and Viton and various hardnesses to suit particular applications
- Available as individuals and in kits

**Degreaser**

- Extensive range of universal and specialist degreasers
- Removes/breaks down oil, grease, dirt and more
- Available in aerosol and 1 to 200L sizes
- Available in top quality brand Motospray

**Truck and Car Wash**

- Great for removing grease, grime, oil and soot
- Available in 1L, 5L, 20L and 25L
- Available in top quality brand Chemtech

**Chemicals**

- Big range of chemicals to suit many applications
- White spirit, methylated spirit, wax and grease removers, acetone, and other solvents
- Available in 1, 5 and 20 litre options

Coolant and Additives

- Large range of coolants, concentrates and additives to suit automotive and industrial applications
- For maintaining and conditioning cooling systems

**Rags and Sponges**

- Good Selection of sponges and rags for washing and cleaning purposes
- High quality absorbent rags
- Bulk bags available in various sizes

Tools and Abrasives

Including top quality brands such as Sutton Tools, Goliath, Recoil, Flexovit and Jocso

4WD Tools

- Specialty hub removal tools
- Compatible with standard socket drivers
- Designed specifically for Australian 4x4 market

Hand Tools

- Complete range of hand tools for all applications
- Available individually and in kits
- Available in top quality brands Chicane, SP Tools and Kincrome

Drill Bits

- Large range for drill bits available to suit timber and metal
- Available individually and in kits
- Available in top quality brands Sutton and P&N

Taps, Dies and Thread Repair

- Large range of Taps, Dies and Thread Repair kits
- Metric and imperial available in multiple thread pitches
- Available individually and in kits
- Available in top quality brands Sutton and P&N

Cutting and Grinding Discs

- Extensive range of cutting, grinding and sanding discs
- Available in a variety of grits and sizes

Hack Saw Blades

- Large selection of Hacksaw blades in varying styles
- Multiple blade types available to suit all applications
- Available in various TPI (teeth per inch)

Bearing and Specialty Tools

- Large range of bearing tools and specialty equipment
- Bearing and gear pullers/drivers, O-ring gauges and more
- Available individually and as kits

Tool Chests and Trolleys

- Large range of tool storage cabinets and chests
- Top quality to ensure reliable operation and safe storage for tools
- Available in top quality brands Chicane, SP tools and more

HUGE RANGE OF WELDING CONSUMABLES & SAFETY GEAR

**From rods and wire to PPE –
everything you need for a safe &
efficient job.**

SAFETY & WELDING CONSUMABLES

Eye and Face Protection

- Large range of eye and face protection
- Glasses, goggles, face shields and more
- Top quality products to always ensure maximum safety

Respiratory

- Large selection of respiratory protection
- Masks, respirators and replacement filters
- Top quality to ensure short and long-term safety

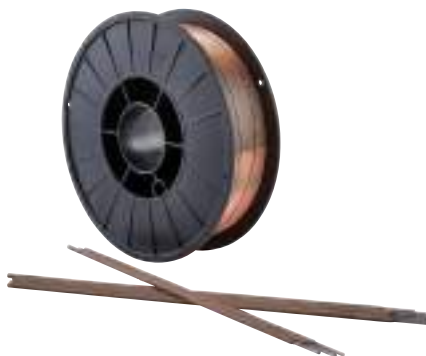

Ear Protection

- Quality range of ear and hearing protection for all applications
- Disposable and reusable ear plugs, headband earplugs and earmuffs
- Available in top quality brands Pro Choice and more

Gloves

- Extensive range of hand protection for all situations
- Cut resistant, rigging, leather, nitrile, chemical resistant, cotton and more
- Top quality to ensure long product life and max safety
- Available in top quality brands Pro Choice and more

Welding Consumables

- Large range of welding consumables including rods, filler rod and wire
- Available for all types of welding including ARC, MIG, TIG and oxy acetylene
- Available in top quality brands Sorex and WIA

Welding Equipment

- Large selection of quality welding equipment
- Gloves, helmets, brushes, pliers, igniters, and hammers

TIE DOWNS & LOAD RESTRAINTS

Ratchet Straps

- Large range of ratcheting straps in various lengths and widths
- All ADR approved and load rated to ensure safe and reliable operation
- Essential for securing loads for transport

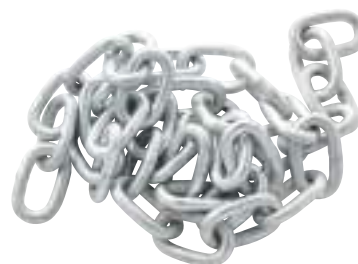

Shackles

- Extensive range of shackles including bow shackles and D shackles
- Available in galvanised, stainless and zinc plated finishes
- All load rated and ADR approved to ensure safe and reliable operation

Rope

- Large range of synthetic and natural fibre ropes available
- Universal application
- Available in multiple load ratings and lengths

Chain

- Large range of universal chain available including galvanized, stainless, zinc plated and plastic chains
- Sold by the metre
- Large variety of sizes and load ratings
- High tensile
- Including Recovery Drag Chain Kits and Transport Chain and Kits

Slings and Straps

- Lifting slings and straps for safe lifting and securing of heavy objects
- ADR approved
- Available in multiple load ratings and lengths

Eye Bolts and Mounting Points

- Large range of eye bolts in male and female version
- Load rated and ADR approved for security and safety
- Available in multiple thread sizes and load ratings
